Pepper Construction Group Welcomes Tom Lapidus as Senior Vice President of Information Technology

CHICAGO, IL – October 20, 2023 Pepper Construction Group is pleased to announce that Tom Lapidus has joined the firm as Senior Vice President of Information Technology. With an impressive track record of leading technology initiatives across global organizations, Lapidus will play a pivotal role in advancing Pepper Construction Group's digital transformation.

Lapidus brings to the role more than 23 years of experience in information technology, with a focus on leveraging technology to drive efficiency, align with business strategy and deliver exceptional results. He will be responsible for overseeing all aspects of the company's information technology strategy, including information security compliance, modernization, best in class IT service management, innovation in technologies (including Artificial Intelligence) and increasing the focus on data analytics.

Lapidus holds a bachelor's degree in business management from DePaul University and has held various senior-level IT positions at international and US-based firms where he successfully implemented innovative technology solutions that enhanced productivity, increased efficiency and reduced costs.

About Pepper

Now in their fourth generation of family leadership, Pepper Construction serves clients across the country with comprehensive teams in Illinois, Indiana, Ohio and Wisconsin. Ranked by ENR (Engineering News Report) magazine as one of the top builders of sustainable projects in the nation, Pepper serves clients in a variety of markets such as aerospace, healthcare, science and technology, education, manufacturing and industrial, data centers, entertainment, hospitality and interiors, among others. Pepper's High Performance and Sustainable Construction group is part of their Integrated Construction Services (ICS) team, which represents some of the most advanced thought leadership in our industry – investigating new technologies, evaluating new methodologies and integrating innovative solutions in the field.
